

Fire safety training courses for the workplace

GREATER MANCHESTER
FIRE AND RESCUE SERVICE

Business Regulation Solutions is a business support company providing events, training and consultancy to businesses to assist them in improving their business performance and compliance with a wide range of business regulations. This includes fire safety, licensing, trading standards, food safety and health and safety.

We provide a range of fire safety courses designed to help businesses protect their staff and premises from fire and meet their legal safety requirements.

Our fire training courses are delivered by trainers with a wealth of experience in fire related matters gained as Fire Officers of Greater Manchester Fire & Rescue Service.

The quality of our pre-course information, certification and evaluation are all ensured in accordance with our accredited ISO 9001 quality management system. Courses are revised to keep up to date with changes in legislation.

We offer the following standard courses:

- Fire Marshal
- Fire Awareness
- Fire Extinguisher

We also offer bespoke fire training and specialist courses to suit your organisation's needs.

We can deliver our training courses at Greater Manchester Fire & Rescue Service Training Centre or at your premises, if suitable.

FIRE MARSHAL TRAINING

Designed for employees who may be part of a first response fire team, or have responsibility for fire safety in the workplace, evacuation of premises or supervision of fire drills.

This one day course covers the following . . .

Fire science; reality of fire; duties of Fire Marshals; human behaviour; procedures and evacuation principles; fire hazard spotting; legislation; staff training; fire drills; liaison with Fire & Rescue Service; crowd control; and a practical extinguisher session.

FIRE AWARENESS TRAINING

Designed to give candidates an understanding of the nature of fire and the need for an organised and speedy evacuation. It is ideal for candidates who have a responsibility for evacuation but do not require the level of training given on a Fire Marshal course. Ideally suited to buildings with large numbers of employees where there are also Fire Marshals or buildings open to the public.

This three hour course covers the following . . .

Fire science; reality of fire; fire drills and procedures; human behaviour; routine duties; and a practical extinguisher session.

FIRE EXTINGUISHER TRAINING

Designed to equip students with an understanding of the types and sizes of fires, the appropriate use of fire extinguishers and the possible dangers of tackling a fire.

This one and a half hour course covers the following . . .

Reality of fire, including the speed of fire spread and the amount of smoke generated from small fires; types of fire; types of extinguishers and their uses; and a practical extinguisher session.

Please contact us for prices.

Discounts available for Greater Manchester Chamber members.
