

Food safety training courses

Business Regulation Solutions was established as a partnership between Manchester Solutions, Greater Manchester Fire & Rescue Service, the ten Greater Manchester Local Authorities and Warrington Council as a business support company. We provide events, training and consultancy to businesses to assist them in improving their business performance and compliance with a wide range of business regulations. This includes fire safety, licensing, trading standards, environmental protection, food safety and health & safety.

We provide a range of food safety courses designed to help businesses train their staff to operate safely and meet their legal safety requirements.

Our food safety training courses are delivered by Local Authority Environmental Health Officers who have considerable experience in the practical application of food safety legislation.

We offer nationally recognised courses that are approved and registered by the Chartered Institute of Environmental Health.

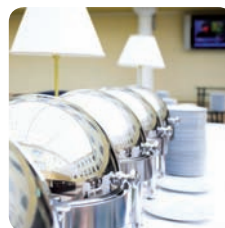

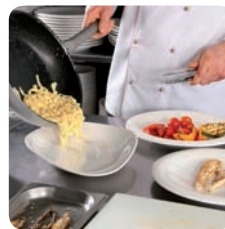

The quality of our pre-course information and evaluation are all assured in accordance with our accredited ISO 9001 quality management system. Courses are revised to keep up to date with changes in legislation.

We offer the following standard courses for all food handling sectors:

- Levels 2, 3 and 4 Awards in Food Safety in Catering, for Manufacturing and for Retail
- Safer Food, Better Business for Caterers

We also offer bespoke food safety and specialist courses on areas such as Nutrition and healthy eating, to suit your organisation's needs.

We can deliver our training courses at our training facilities or at your own premises, if suitable.

Food safety training is a key ingredient in preparing and preserving essential skills in the workplace. Food safety competence is fundamental in enabling employees to deliver high quality food to customers safely.

Level 2 Awards in Food Safety

Designed for anyone working in a catering, manufacturing or retail setting where food is prepared, cooked and handled.

These one day sector specific courses cover the following topics:

Legislation; Food safety hazards; Temperature control; Refrigeration, chilling and cold holding; Cooking, hot holding and reheating; Food handling; Principles of safe food storage; Cleaning; Food premises and equipment.

Level 3 Awards in Food Safety

Designed for managers and supervisors in medium and large manufacturing or catering businesses.

These three day sector specific courses cover the following topics:

Legislation; Supervisory management; Temperature control (chilling, cooking); Cleaning; Contamination control; Applying and monitoring good hygiene practices; Implementing good food safety procedures; Contributing to the safety training of others.

Level 4 Awards in Food Safety

Designed for managers, supervisors and senior hygiene personnel in medium and large manufacturing or catering businesses.

These six day sector specific courses cover the following topics:

Bacteriology; Food-borne illnesses; Physical contamination of food; Food storage, temperature control and preservation; Design and construction of food premises and equipment; Cleaning and disinfection; Pest control; Personal hygiene; Training strategies; Legislation; Management control techniques.

Safer Food, Better Business for Caterers

Designed for small catering businesses such as restaurants, cafes and takeaways.

This programme has been developed by the Food Standards Agency for catering businesses to assist them to comply with regulations introduced in January 2006.
